

We are music radio station located in Osaka, Japan!

FM802, established in June 1989, celebrated its 35th anniversary in 2024.

As the top-rated radio station in the Kansai area, FM802 targets a core audience of young and young adult listeners (mainly aged 16-34) while also appealing to a broad demographic ranging from teenagers to those in their 50s. Its success stems from a unique combination of engaging local programming, on-the-ground music events, and impactful music campaigns that resonate deeply with the community.

In addition, FM802 hosts approximately 1,000 on-site recordings, live events, and advance film screenings across our programs each year.

HEAVY ROTATION

FM802 operates a **Heavy Rotation** system in which we select **one Japanese track and one international track each month**, airing them across all FM802 programs.

When FM802 first launched, we became the **first radio station in Japan to introduce a Heavy Rotation format**, modeled after FM radio stations in the United States.

For December 2025, the Heavy Rotation selections are:

International: Cavetown — “*NPC*”

Japanese: OddRe: — “*Tokyo God Street Boys*”

In conjunction with their Heavy Rotation selection, **OddRe:** has also been confirmed to perform at **FM802 RADIO CRAZY**.

Throughout the year, FM802 hosts a wide variety of events, and Heavy Rotation artists frequently appear as guests on programs as well as perform at FM802-sponsored events.

Heavy Rotation tracks are aired around five times per day, and because FM802 broadcasts can be heard throughout Osaka, these songs often see a significant boost in the region's Shazam charts, demonstrating the strong influence of the station's airplay.
